# Yunhe (Henry) Liang

yla881@sfu.ca · Vancouver area, BC

## PROFILE

- Interactive Arts & Technology student with a Computing Science foundation, combining programming, data structures and databases with visual design and user-centred thinking.
- Completed coursework in object-oriented design (Java), data structures, software engineering and database systems before moving into SIAT's design and media courses.
- Clear written and team communicator: coursework in communication strategies and in design communication & collaboration.
- Technical: SQL · HTML/CSS/JavaScript · Figma · Adobe Photoshop/Illustrator · Python · Canva · DBeaver.
- Languages: English (fluent) · Mandarin (spoken, fluent).

## PROJECTS

**Restaurant Management System** **Jan 2026 – Apr 2026**

*Course project, Database Systems I, Simon Fraser University, Surrey, BC*

- Built a MySQL database application with 3 teammates to track menu items and costs, orders, staff on shift, occupancy and table status. Learned the process behind planning a database.
- Led the team: scheduled weekly meetings, tracked progress and served as main spokesperson, keeping the project ahead of schedule.
- Contributed to the database schema and filmed the project demo video (published on YouTube).

**Citation Guide: Presentation & Poster Series** **May 2026 – Aug 2026**

*Course project, IAT 103W Design Communication and Collaboration, Simon Fraser University, Surrey, BC*

- Created and performed a presentation and 5 posters about the 4 Cs (Context, Conveyance, Connection, Citation) with a 5-person team, using Canva.
- Created the poster on how to use quotations correctly as part of the citation section, and presented the sections on quotation and patchwriting.
- Met weekly: in person for production work, online for planning. Adjusted the plan when the team's availability changed.

## RELEVANT COURSEWORK

- **Software & data:** Introduction to Software Engineering · Object Oriented Design in Java · Data Structures and Programming · Database Systems I · Introduction to Computer Programming I & II
- **Design & media:** Multimedia Programming for Art & Design · Design Communication & Collaboration · AI Today and Tomorrow · Digital Image Design (in progress) · Graphic Design (in progress) · Media Across Cultures (in progress)

## EDUCATION

**Bachelor of Arts, Interactive Arts & Technology (Co-op)** **Sept 2024 – Present**

*Simon Fraser University, School of Interactive Arts & Technology, Surrey, BC · Expected graduation: 2029*

- Transferred from Computing Science to Interactive Arts & Technology in 2026.

## INTERESTS

- Board games · Resident Evil series (survival-horror game design) · Indie animation · Escape rooms · Digital art
